Can I Send You Some Free Seed Corn Samples?

I want you to see some of our seed corn. I did think of sending some samples along with the catalog, but I didn't know whether you would care for them or not, and I didn't know what kind would suit you best anyway, so I thought I better wait and hear from you first.

We've got the goods all right, and we are not afraid to show them up. You can tell that when you see the samples.

Mark the kinds you are interested in and would like to see. You are welcome to them whether you intend to order or not.
